

# THA Endorses Four New Companies

The Texas Hospital Association endorses products and services to help member hospitals find business partners who can provide the best value for the money. HealthSHARE, a subsidiary of THA, identifies and evaluates products and services for possible THA endorsement. The four companies below recently were endorsed by THA.

**Hunter Pharmacy Services** provides hospital pharmacy management and consulting services to hospitals throughout Texas. HPS is independently owned and operated by pharmacists, providing a small corporate structure that allows the flexibility, affordability and personalized service that clients expect and deserve. HPS can assume responsibility for a hospital's entire pharmacy operation, including hiring, training, scheduling, overseeing/meeting regulatory compliance, clinical support, cost control measures, inventory control, and implementing and maintaining technologies.

For more information, contact Dawn Rana at 800/707-8799 or dawnrana@gmail.com or go to [www.hunterpharmacy.com](http://www.hunterpharmacy.com).

**Jackson-Lloyd Insurance Management** provides risk management solutions in the Texas non-subscriber market. Non-subscription is the process, under Texas law, where an employer opts out of the state's workers' compensation system and provides its own benefit plan to cover occupational injury/illness, legal liability defense and damage payments. These plans tend to cost less (up to 50 percent) than actual workers' compensation plans and to provide wide care for the injured worker and legal defense for the employer.

For more information, contact Thomas D. Lloyd at 800/657-5242 or tilloyd@jackson-lloyd.com or go to [www.jackson-lloyd.com](http://www.jackson-lloyd.com).

**MedImpact HealthCare Systems Inc.** partners with the nation's finest hospitals, health plans and employers to provide pharmacy benefit management services to 35 million Americans. MedImpact's SMART340B® prescription drug program allows qualified hospitals to maximize the economic benefits of the federal 340B Drug Pricing Program. On average, 340B prices can be 25 percent to 50 percent below average wholesale prices. MedImpact offers similar solutions to hospitals that are not qualified 340B-covered entities to help them increase revenue from pharmacy services.

For more information, contact Jill Simoes at 858/790-3084 or jill.simoes@medimpact.com or go to [www.medimpact.com](http://www.medimpact.com).

**NorthStar Anesthesia P.A.** is a Texas-based national anesthesia management company that specializes in innovative anesthesia solutions that increase operating room efficiency and provide cutting-edge systematized approaches to anesthesia delivery. NorthStar exemplifies the convergence of leadership mentoring, decision support capability, comparative benchmarks, best practices and ongoing collaboration with medical staff. Whether a hospital is dealing with out-of-control costs, poor service or decreasing surgeon satisfaction, NorthStar's proven practice model can help.

For more information, contact Diann Litsch at 682/227-6847 or dlitsch@northstaranesthesia.com or go to [www.northstaranesthesia.com](http://www.northstaranesthesia.com).

Texas Hospital Association-endorsed companies enter into a royalty agreement with THA, giving them license to use the THA name and the THA-endorsed company logo. In addition, through a marketing agreement between endorsed partners and HealthSHARE, HealthSHARE promotes and markets endorsed businesses to hospitals and health care organizations. For more information, visit [www.healthshare-tha.com](http://www.healthshare-tha.com).

## Ask the Experts..We know

### The Regulatory Experts

It's what we proudly call ourselves, because it is what our clients count on us to be. Today, we continue to be laser-focused on providing regulatory solutions that protect cash flow and optimize the fiscal health of an entire enterprise.

At CampbellWilson, we have a powerful mix of what it takes to help you thrive even as the regulations change:

Multi-Disciplinary team of hands-on senior consultants including attorneys, CPAs, registered nurses, management consultants and more.

Current legislative monitoring and analysis.

Integrated solutions services that not only work but work together. And software tools that ease the load.

Successful track record serving some of the best hospitals in America
